4. FIRST AID MEASURES

Inhalation: Remove to fresh air. Lay patient down and rest.

Eyes: Immediately rinse eyes thoroughly with plenty of water for at least 15 minutes. If irritation persists or recurs seek medical attention.

Skin: Immediately remove all contaminated clothing and wash contacted area thoroughly with soap and plenty of water. Seek medical attention in event of irritation.

Ingestion: Do NOT induce vomiting. Wash mouth with water and seek medical attention.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media: Water fog, fine water spray, foam, CO₂ and dry chemical.

Hazards from combustion products: Not known.

Precautions and equipment for fire fighters: Fire fighters should use self-contained breathing apparatus and

protective gloves in case of fire.

Hazchem code:

6. ACCIDENTAL RELEASE MEASURESMethods and materials for containment and clean up:

The area in which the spill has occurred will be slippery. Personnel involved in clean up require adequate respiratory, skin and eye protection in case of large spillage. Spills should be contained by absorbing with dry, inert filler (soil, sand or vermiculite), which then can be shovelled into appropriately labelled drums for disposal.

Environmental precautions:

Do not allow to enter into drains, sewers or waterways.

7. HANDLING AND STORAGEPrecautions for safe handling:

No special precautions.

Conditions for safe storage:

The product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with government regulations. Store in a cool place away from heat.

8. EXPOSURE CONTROLS / PERSONAL PROTECTIONEngineering Controls:

Provide exhaust ventilation where operating conditions may create excessive workplace vapour or mists.

Exposure Standards

Paraffin wax fume:

ES-TWA: 2 mg/m³NZ WES-TWA: 2 mg/m³Personal Protective Equipment (PPE):Respiratory protection:

Do not breathe vapour/dust/spray/fumes. In case of insufficient ventilation, wear suitable respiratory equipment. Use an approved cartridge respirator when working at places of high gas/dust concentrations for a short time.

Glove type (AS2161):

Avoid contact with skin. Wear suitable protective gloves.

Eye protection:

Wear eye/face protection, e.g. safety glasses with side-shields.

Clothing:

General protective clothing such as overalls or long pants and a long sleeve shirt or a chemical apron. Remove contaminated clothing as soon as possible. Launder thoroughly before reusing. For large spills or ponded areas impervious footwear is preferred.

Other:

Use barrier creams to protect skin from contact with the material. Always wash hands before smoking, eating, drinking or using the toilet and after finishing work. Observe the usual precautions when handling chemicals.
