

Safety data sheet

Page: 1/8

BASF Safety data sheet
Date / Revised: 03.08.2011
Product: **MASTERTOP P-10**

Version: 1.0

(30431764/SDS_GEN_AU/EN)

Date of print 04.08.2011

1. Substance/preparation and company identification

MASTERTOP P-10

Use: Product for construction chemicals

Company:

BASF Australia Limited (ABN 62 008 437 867)
Level 12, 28 Freshwater Place Southbank
Victoria 3006, AUSTRALIA
Telephone: +61 3 8855-6600
Telefax number: +61 3 8855-6511

Emergency information:

BASF Emergency Advice Number: 1800 803 440 (24h) [within Australia]
BASF Emergency Advice Number: + 61 3 8855 6666 [outside Australia]

2. Hazard identification

Irritating to eyes.

HAZARDOUS SUBSTANCE, NON-DANGEROUS GOOD
Irritating to eyes.

Keep out of the reach of children.

3. Composition/information on ingredients

Chemical nature

modified cement mortar

Hazardous ingredients

Portland cement (< 2ppm Cr VI)
Content (W/W): $\geq 5\%$ - $\leq 7\%$
CAS Number: 65997-15-1
EC-Number: 266-043-4
Hazard symbol(s): Xi
R-phrases: 37/38, 41

The wording of the hazard symbols and R-phrases is specified in chapter 16 if dangerous ingredients are mentioned.

4. First-Aid Measures

General advice:

First aid personnel should pay attention to their own safety. Remove contaminated clothing.

If inhaled:

After inhalation of dust. Keep patient calm, remove to fresh air. If difficulties occur: Obtain medical attention.

On skin contact:

After contact with skin, wash immediately with plenty of water and soap. Under no circumstances should organic solvent be used. If irritation develops, seek medical attention.

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

On ingestion:

Rinse mouth immediately and then drink plenty of water, seek medical attention. Do not induce vomiting unless told to by a poison control center or doctor.

Note to physician:

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

5. Fire-Fighting Measures

Additional information:

Product itself is non-combustible. Only the packaging materials can catch fire. The generally usual extinguishing agents to esteem for sufficient.

Specific hazards:

Product is not combustible or explosive. No particular hazards known.

Further information:

Product itself is non-combustible; fire extinguishing method of surrounding areas must be considered. The degree of risk is governed by the burning substance and the fire conditions. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental Release Measures

Personal precautions:

Avoid dust formation. Avoid contact with skin and eyes. Use personal protective clothing. Handle in accordance with good building materials hygiene and safety practice.

Environmental precautions:

No special precautions necessary.

Methods for cleaning up or taking up:

Sweep/shovel up.

7. Handling and Storage

Handling

Avoid dust formation. The Cement contained in this product reacts alkaline when in contact with water or humidity. This may cause severe irritation of skin or mucous membranes. The humidity of the skin or mucous membranes is enough for this reaction. Prolonged direct contact to the dry product should be avoided therefore. Avoid inhalation of dusts. Avoid skin contact. Pour downwind and allow as little free fall as possible while emptying bags into equipment. Breathing must be protected when large quantities are decanted without local exhaust ventilation.

Protection against fire and explosion:

No special precautions necessary.

Storage

Suitable materials for containers: paper

Further information on storage conditions: Containers should be stored tightly sealed in a dry place.

8. Exposure controls and personal protection

Components with workplace control parameters

Quartz (SiO₂), 14808-60-7;

TWA value 0.1 mg/m³ (OEL (AU))

(OEL (AU)), dust

Included in the regulation, but with no data values - See the regulation for further details

Limestone, 1317-65-3;

TWA value 10 mg/m³ (OEL (AU)), Inhalable dust

Calcium sulphate, 7778-18-9;

TWA value 10 mg/m³ (OEL (AU)), Inhalable dust

Cement, portland, chemicals, 65997-15-1;

BASF Safety data sheet
 Date / Revised: 03.08.2011
 Product: **MASTERTOP P-10**

Version: 1.0

(30431764/SDS_GEN_AU/EN)

Date of print 04.08.2011

TWA value 10 mg/m³ (OEL (AU)), Inhalable dust
 TWA value 1 mg/m³ (ACGIHTLV), Respirable fraction
 The value is for particulate matter containing no asbestos and <1% crystalline silica.

Personal protective equipment

Respiratory protection:
 Breathing protection if dusts are formed.

Hand protection:
 nitrile coated cotton gloves (e.g. EN 388, 374)

Eye protection:
 Tightly fitting safety goggles (splash goggles) (e.g. EN 166)

Body protection:
 Body protection must be chosen based on level of activity and exposure., light protective clothing

General safety and hygiene measures:
 Avoid contact with the skin, eyes and clothing. Avoid inhalation of dusts. In order to prevent contamination while handling, closed working clothes and working gloves should be used. Handle in accordance with good building materials hygiene and safety practice. When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift the skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks).

9. Physical and Chemical Properties

Form:	powder
Colour:	grey
Odour:	characteristic
pH value:	>= 11 (>= 1 %(m), 20 °C) neutral to slightly alkaline
:	not applicable
Flash point:	not applicable
Flammability:	does not ignite
Lower explosion limit:	not applicable
Upper explosion limit:	not applicable
Self ignition:	not self-igniting
Self heating ability:	It is not a substance capable of spontaneous heating.

BASF Safety data sheet
Date / Revised: 03.08.2011
Product: **MASTERTOP P-10**

Version: 1.0

(30431764/SDS_GEN_AU/EN)

Date of print 04.08.2011

Explosion hazard: not explosive
Fire promoting properties: not fire-propagating

Vapour pressure:
not applicable

Density: 2.24 g/cm³
(20 °C)

Bulk density: not applicable
1,000 - 1,800 kg/m³

Miscibility with water:
not (e.g. <10%)

Hygroscopy: Non-hygroscopic

Viscosity, dynamic:
not applicable

Solids content: 100 %

Other Information:

If necessary, information on other physical and chemical parameters is indicated in this section.

10. Stability and Reactivity

Conditions to avoid:
See MSDS section 7 - Handling and storage.

Thermal decomposition: No decomposition if stored and handled as prescribed/indicated.

Substances to avoid:
strong bases, strong acids

Corrosion to metals: No corrosive effect on metal.

Hazardous reactions:
The product is stable if stored and handled as prescribed/indicated.

No hazardous decomposition products if stored and handled as prescribed/indicated.

11. Toxicological Information

Acute toxicity

Assessment of acute toxicity:
Virtually nontoxic after a single ingestion.

Irritation

Assessment of irritating effects:

May cause severe damage to the eyes. Skin contact causes slight irritation.

Repeated dose toxicity

Assessment of repeated dose toxicity:

The product has not been tested. The statement has been derived from the properties of the individual components.

Genetic toxicity

Assessment of mutagenicity:

The product has not been tested. The statement has been derived from the properties of the individual components.

Other relevant toxicity information

The product has not been tested. The statement has been derived from the properties of the individual components.

12. Ecological Information

Ecotoxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms. The product has not been tested. The statement has been derived from the properties of the individual components.

Persistence and degradability

Assessment biodegradation and elimination (H₂O):

The product has not been tested.

13. Disposal Considerations

Observe national and local legal requirements.

Residues should be disposed of in the same manner as the substance/product.

Contaminated packaging:

Completely emptied packagings can be given for recycling.

14. Transport Information

Domestic transport:

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the safety data sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
